THE G.O.P. has only to do one thing in dead earnest-do that one thing so hard that the people will believe and know that it meant to fight to the finish-and it would have the country solid for a score of years. Let its leaders, its men of conscience and convictions in anti-monopoly, anti-trust laws, and enforce them and the people will be with the mover whelming majorities. The cry about expansion, and imperialism are mere nothings, and would not be heard at all, if the guns of government were set playing on the real enemy of our republic and its liberty. The real issue would then swallow up the artificial ones as flames devour the dry

IT appears that General Wood would not kick if the G. O. P. should give him the vice presidential nomination. Alas his hopes are vain. All republican presidents, since the war, have been military men, and the civilian part of the country ought to, at least, have the tail on the kite. If none but generals are to have high offices, then most solidly in favor of free trade with war will become a necessity as the hot Porto Rico. The country press is the bed out of which these generals may be taken to plant in official places.

Constant coughing is not only very annoying, but the continuous hacking and irritation will soon attack and injure the delicate lining of the throat and air passages. A simple cough is bad enough; but a chronic cough is really dangerous. Take advice and use the celebrated Dr. Bull's Cough Syrup at once and be cured.
